-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

1. Claims 23 and 29 are objected to because of the following informalities:

Applicants are advised that there doesn't appear to be any proper antecedent basis in claims 15 or 28 for "said body" claimed in claims 23 and 29. A body has not been set forth in these claims. Appropriate correction is required.

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim 11 is rejected under 35 U.S.C. 103(a) as being unpatentable over Frey, cited by applicants.

The portion of the clip with the slot (f) of Frey is considered to define the back member of the body. The bent portion defines an arm having an upper end and a lower end and including a hook facing toward the back member at (c). Since B is an extension of the back member, the upper end of the clip is attached to the back member. Note that the shape of member c provides an upwardly directed catch which is engageable with the slot or opening at f, as claimed.

3. Claim 25 is rejected under 35 U.S.C. 103(a) as being unpatentable over Yamada in view of either Goto or Kamiya, all of record.

. Applicants have argued that Yamada doesn't teach outwardly projecting ears extending from each side member. However, The extensions of the sides beyond members 2c extend outwardly from the side members away from the back and therefore do in fact define outwardly projecting ears on the side members. Admittedly Yamada may not provide a recess or opening in the lower end wall. However, such a recess is suggested by Goto in broken lines in Figure 2. Furthermore, Kamiya clearly

teaches the provision of an opening in the lower end wall as shown in Figure1 and also Figure 4 to aid in removing the device. Therefore to have merely included a recess or opening in the lower end wall to aid in removing the device would have been obvious in view of either Goto or Kamiya.

4. Applicant's arguments with respect to claims 11 and 25 have been considered but are moot in view of the new ground(s) of rejection.

5. Applicant's arguments, see paragraphs 1 and 2 of page 11, paragraph 2 of page 12 and paragraph 1 of page 13 of the amendment, filed 11/24/03, with respect to the objection of claims 2-10, 13, 14 and 21 and the rejection of claims 12, 15-20, 22, and 24 have been fully considered and are persuasive. The rejections and objection of the claims have been withdrawn.

6. Claim 12 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

7. Claims 2-10, 13-20, 22, 24 and 26-28 are allowed.

8. Claims 23 and 29 would be allowed upon correction and claims 1 and 21 have been canceled.

9. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Benward and Goldman show other tool holders with mounting clips and a recess or opening in the lower end wall, as claimed.

10. The following are suggested formats for either a Certificate of Mailing or Certificate of Transmission under 37 CFR 1.8(a). The certification may be included with all correspondence concerning this application or proceeding to establish a date of mailing or transmission under 37 CFR 1.8(a). Proper use of this procedure will result in
